Summary of Advanced Ed Survey (Spring 2018)
Student Survey
Sedona Oak Creek Unified School District
Grades 5-12

Data were grouped for the whole district (completed by **544** students)

Responses were across the entire scale from Strongly Agree to Strongly Disagree or Not Applicable, for all questions. Bell Curve skewed to the Positive (Agree) Side for most responses. Second highest response was the neutral response (average 20-30% on each question).

Highly positive skew (strongly agree or agree): (40-60% or higher of respondents)

- Staff are focused upon improving student learning
- High expectations; high quality of education; challenging for me
- High number and variety of assessments; ready access to information re: grades; graded fairly
- Variety of teaching methods used
- Teachers' clear explanations of expected learning and behavior
- Use of tests, projects, presentations, portfolios
- School grounds as clean and safe
- Resources that help success—teaching staff, counselors, career and tech information, media center, computer access
- Participation in activities that interest me

Skewed to negative (disagree or strongly disagree): (over 30% of respondents)

- Students are treated with respect
- Students are prepared for issues they will confront in future
- Students are respectful of property
- Students help each other, even if not friends
- Student opinions are considered for school improvement
